National Review of the MVIRI Code of Conduct – Have Your Say

The Code Administration Committee (CAC) is conducting a review of the Code of Conduct. (To see the Code, go to www.abrcode.com.au). The Code is being reviewed against the Principles of the Code to determine if the Code meets the needs that are required. So the question is:

Has the Code operated in accordance with the Preamble and Principles of the Code?

If you have something to say about this, send in your written submission to the reviewer (details attached) by 25th November 2009. There will also be a face-to-face meeting at MTA on 9th December 2009 (if you would like to attend, go to the Code website to sign up and get more information: www.abrcode.com.au).

The review will consider:

1: Repairer Preamble Overview = Minimum Industry Wide Standards

In recognition of Repairers' right to freely structure their business arrangements, this Code provides for minimum, industry-wide standards.

2: Insurer & Repairer Principles of the Code Overview

Insurers and Repairers agree they have a responsibility to ensure vehicle repairs are authorised and carried out in a professional manner and to ensure that the safety, structural integrity,

presentation and utility of the vehicles are restored.

3: Other matters regularly or consistently raised should also be included in the review

See the attached information from the CAC for more details.

MTA NSW will be putting in a submission to this review.
