

The Motor Traders' Association of NSW has set up this Industry News Service to inform all repairers of the issues facing the industry.

Industry News Service

“Cash Settlements”

Third Party Resolution!

In consultation with various Insurers regarding the processing of cost of repairs to third parties, MTA NSW is advising the Industry that meetings are being arranged to better manage these claims.

Key industry stakeholders will be invited to these meetings to sort out Industry differences in line with commercial realities of Insurers' business needs.

These meetings will be based upon the fair and reasonable costs to carry out the necessary repairs to return the vehicle back to pre-accident condition and authorising work.

This will ensure that these people are not disadvantaged when dealing directly with Insurers.

MTA NSW will keep the Industry informed on developments!
